## *The Wine List*

Our wine list of almost 1000 selections encompasses what is one of Australia's largest collections of fine wine in an international hotel.

Our sommeliers are pleased to offer advice as well as to fulfil your requests; explore some of the best Australia has to offer and many great and difficult to find bottles from throughout the world.

Housed in climate controlled cellars within Hilton Sydney and glass brasserie's 3500 bottle wine wall; to the best of our knowledge, the wines in our collection have been kept under controlled temperatures and humidity since their release, and many come direct from the winery, estate or Château.

Carefully sourced; we believe each of our older 'museum' bottles to be sound; however each bottle has its own history. For some wines of age, there are often no good wines or vintages *per se*, only good bottles. We endeavour to find that bottle for you.

Enjoy.

# Australian Semillon

Although not as fashionable as Sauvignon Blanc, Semillon is regarded as a great and unique wine of Australia. It demands time in bottle, and rewards by developing from a zesty, grassy, lime and lemony youth to a crescendo of palate pleasing richness, hinting at the likes of honey, roasted nuts and buttered toast, at 10 to 20 years of age.

*"Hunter Valley Semillon is unique in the world of table wine. Low alcohol, no oak, grassy/hay through to citrus and lime flavours as young wines, they have an amazing ability to bottle age. At five to ten years they take on a green-gold hue and rich toasty characters. Our ILR Reserve is only released at five years of age.*

## Riesling (Australia)

Unlike their European counterparts, Australian Rieslings are generally made in dry styles. The result is another international gem, which due to their crisp fruit and acid balance are a perfect food accompaniment.

Riesling also has an ability to mature with age as well as delight with its youthful freshness. In particular the Clare or Eden Valleys of South Australia which develop this grape's classic honey and citrus characters. There are more fine examples of Rieslings from Western Australia's Great Southern region (great complexity), from Tasmania (crisp and perfumed) and the Barossa Valley (more rounded and full-flavoured) – wineaustralia.com

*Sevenhill, the oldest winery in the Clare Valley, was established in 1851 when the Jesuits who settled in the area planted vines to produce sacramental wine. From these modest beginnings, the Jesuits' focus on wine has remained, with Sevenhill adding to its sacramental wine production with an extensive range of table wines that are highly regarded throughout Australia and overseas.*

# Chenin Blanc

The most famous Chenin Blanc comes from the beautiful village of Vouvray in France's Loire Valley. These wines can age magnificently for decades and have been known to remain in prime condition for more than a century. The wine develops richness, complexity and depth over time but will never lose its fresh and fruit driven character.

*The cellar of the Domaine Marc Brédif, which dates back to the 10<sup>th</sup> century, is one of the most famous cellars in the Loire. In 2km of caves, one million bottles of Vouvray slowly mature, some well over 100 years old. The winery is owned and operated by the Baron de Ladoucette, who maintains exceptionally high standards throughout his wines, his are considered to be some of the finest examples of Vouvray wine.*

# White Burgundy

William Fèvre was among the leaders in defending the high quality of the wines of Chablis. Outspoken in decrying the expansion of Chablis vineyards into areas that do not have the kimmeridgean clay subsoil. He won the admiration of all the region's growers for his fight around the world to stop the use of the word "Chablis" as a generic term for ordinary white wine. From the steepest sub section of Bougros, Bouguerots is so steep that ploughing is done on a winch, but the result is unmistakably worthwhile. Full bodied, fresh yet rich, textural and mineral driven.

## Pinot Meunier

Pinot Meunier has a longer history in Australian wine production than Pinot noir. It is best known as a component in the classic Champagne blend, however, in the Grampians region of Victoria, Pinot Meunier was known at one time as *Miller's Burgundy* and used to make still red varietal wine. Pinot Meunier produces aromatic, lightly coloured red wine with crisp acid, red berry fruit flavours & distinct smoky notes that dominate as the wine ages.

*Best's Millers Burgundy vineyard, first planted in 1868, was made up of about 85% Pinot Meunier and the rest was Pinot Noir. In the early 70's, 11 rows of 100% Pinot Meunier were replanted next to the original vineyard. Today the grapes are hand-picked and sorted, aged in French oak and made with meticulous care. It is the earliest picked red wine at Best's with a lighter bodied profile, slightly woodier profile than its old clone Pinot Noir sibling. The Best's Old Vine Pinot Meunier is the ultimate wine that speaks of place; it has a cult following, particularly in the wine community and the wine trade where people understand how rare this varietal planting is.*

## Pinot Noir Australia

*Produced from what are amongst the oldest Pinot Noir vines in the Yarra Valley, Yarra Yering Pinot Noir has developed an underground following over its existence that is slowly becoming recognised as an equal alongside the historically more 'fancied' wines from the estate. Textural with hints of strawberry, raspberry fruit when young, then get progressively more mushroomy and savoury with age.*

## Red Burgundy Grand Cru

Considered to be the finest estate in Burgundy and even the world, there is no other wine that can seduce like Domaine de la Romanée-Conti; also known as 'DRC' and 'The Domaine'. This estate in France's Burgundy produces wine from Romanée-Conti, La Tâche, Richebourg, Romanée-St-Vivant, Grand Echézeaux, Echézeaux and Montrachet.

### *Romanée Conti*

*Undisputable 'Pearl of Burgundy', as it has been called since 1794. Only one person is allowed to prune the vines of this small, 1.6 hectare vineyard which produces the pinnacle wine of the estate. A wine with supreme finesse, elegance & complexity. It is rich and concentrated yet ethereal & sublime. Only around 450 cases are produced each year.*

### *La Tâche*

*Holding a remarkable reputation for producing great pinot even in the vintages considered to be difficult. It was the only wine produced by the domaine in the lesser vintages of 1950 & 51. La Tâche is said to be a more flamboyant wine than Romanée Conti. It has a great intensity, colour and structure, a result of vines with an average age of 47 years.*

### *Richebourg*

*Just under half the vineyard (3.51 hectares out of 8.03) belongs to The Domaine, spread over several plots. This is always a robust wine, deep in colour, sometimes equal to the desirable La Tâche. Richebourg is structured yet rich and brimming with sweet fruit and incredible length.*

### *Échézeaux*

*Sourced mostly from Les Poulailières, considered to be one of the best vineyards within the grand cru. This is the most accessible wine of the Domaine; in price and because the wine is approachable in its youth with fullness and finesse.*

# Prestige Australian Shiraz

Australia has many brands worthy of the 'prestige' title, below are just a few. Shiraz (the same grape as Syrah in France's Rhône Valley) was one of the first vine varieties to arrive in Australia in 1832. So at home was it on its new turf that plantings prospered and it wasn't long before the local population began to take it for granted. However, by the 1980s people had begun to realise how versatile it could be, its character changed depending on the region in which it was grown.

*Grange is sourced from Kalimna in the Barossa Valley, McLaren Vale, Adelaide (Magill) and Padthaway in South Australia. Penfolds Grange displays fully ripe, intensely flavoured and textured Shiraz grapes in combination with new American oak. The Grange style is the original and most powerful expression of Penfolds' multi-vineyard, multi-district blending philosophy. All the vintages below are listed by Langtons as 9 or 10/10 in quality.*

1976	Penfolds Bin 95 Grange	SA District Blend	1300
1983	Penfolds Bin 95 Grange	SA District Blend	980
1998	Penfolds Bin 95 Grange	SA District Blend	999

*Hill of Grace is a single historic vineyard located in the Eden Valley of South Australia. The century-old shiraz vines were planted around the 1860s by an ancestor, Nicolaus Stanitzki. This 100% pre-phylloxera shiraz vineyard lies opposite an old Lutheran Church, built of local stone, which was euphoniously named Gnadenberg, meaning 'Hill of Grace'.*

*Torbreck Vintners was founded by David Powell in 1994. The flag-ship wine, RunRig, is a wine that exhibits so much power and latent richness that it could easily be mistaken for the hugely concentrated wines sourced from the sun drenched hill of Hermitage. And introducing The Laird, a wine of immense complexity and concentration. This wine I suspect, has a big future among the top wines of the world. KB*

*Winemaker Tim Kirk's ethereal and evocative Clonakilla Shiraz Viognier is perhaps one of the most important advances in the development of Australian Shiraz since the release of 1952 Penfolds Grange Hermitage. Clonakilla, meaning "Meadow of the Church" and located in a gently south facing fold of the cool southern tablelands at Murrumbateman near Canberra, was established by CSIRO research scientist John Kirk in 1971. Fourth son Tim is a theologian turned winemaker, learning his craft from his father and mentors Bailey Carrodus of Yarra Yering and Phillip Jones of Bass Phillip – Andrew Caillard MW (Langton's)*

*Las-Cases is said to be the pre-eminent estate in all St Julien. Considered the first challenger to the first growths. In 2008, a Cornell University study suggested that it should be promoted to first growth status; an opinion based on ratings of the wine over 35 vintages, from 1970 to 2005.*

## Barolo & Barbaresco *Italy's Noble Twins*

Among the finest Italian wines, Barolo and Barbaresco of Piedmont can be the most sublime and the most difficult to appreciate. Both are crafted from the thick-skinned, late-ripening Nebbiolo grape, which has proven unforgiving to almost anyone who tries to remove it from its native Piedmont. Extremely robust with aromas reminiscent of black fruits, tar & leather; high in both tannin and acidity, it takes a skilled hand to produce great Nebbiolo that is both enjoyable in its youth & capable of refinement with extended aging.

*The Gaja winery, located in the village of Barbaresco in the Langhe area of the region of Piedmont, in Italy, was founded in 1859.*

*Angelo Gaja, perhaps the most influential individual in Italian wines over the last 30 years, came from a family of wine makers, but it is probably not true to say that Angelo followed in his father's footsteps. For Angelo Gaja has trodden his own path. Gaja revolutionised the wine business in Barbaresco and beyond. The word 'Sori' means a hilltop with a southern exposure. 'Sperss' is Piedmontese for nostalgia, used in reference to a return to making Barolo after several years of absence. 'Costa Russi' is a single vineyard acquired by the Gaja family in 1967. The name comes from the term "costa", the side of a hill facing the sun, and "Russi" a nickname of the previous owner.*

*Based in Vergne, Vajra is home to some of the best real estate for the production of elevated, aromatic nebbiolo in Piemonte. Aldo and Milena Vajra have been cultivating the 25 hectares of vines on their estate since 1972, and have a further 10 hectares contracted to their annual production. Their production is traditional and Aldo still prefers to age his wines in large oak casks. Vajra's wines are reliably wonderful, full of the character of the fruit, with excellent, firm structure.*

## Sauternes *The Ultimate Dessert Wines*

The powerfully sweet & luscious wines of Sauternes in the Bordeaux region of France produce some of the most sought after dessert wines in the world. A result of the misty Ciron River, *Botrytis cinerea* (Noble rot), hand picking, elite winemaking and a combination of the grapes - Semillon, Sauvignon Blanc & Muscadelle, produce these great wines.

*No other sweet wine has ever come close to achieving the prestige accorded to Château D'Yquem, for centuries it has been a favourite of many famous names, notably American Thomas Jefferson who ordered several hundred bottles of the 1784. D'Yquem's reputation rests on elegance and poise. There is no other.*

# Liquid Sunshine

The Muscats & Tokays from north-east Victoria are truly one of Australia's "gifts" to the world of wine. These rich and textural wines are sometimes described as "liquid sunshine", as the grapes are generally left on the vine much longer than usual. This allows the berries to store more natural sugar while drying out slightly in the warmth of Australia's autumn days. Rutherglen Muscats & Tokays are classified under four descriptions that mark a progression in richness, complexity and intensity of flavour.

*'Rutherglen Muscat' – is the foundation of the style; displaying the fresh raisin aromas, rich fruit, clean spirit and great length of flavour on the palate which are the mark of all the Muscats of Rutherglen.*  
Average age 2-5 years. Residual sweetness 180-240 grams per litre.

*'Classic' Rutherglen Muscat – displays a greater level of richness and complexity, produced through the blending of selected parcels of wine, often matured in various sizes of oak cask to impart the distinctive dry 'rancio' characters produced from maturation in seasoned wood.*  
Average age 5-10 years. Residual sweetness 200-280 grams per litre.

*'Grand' Rutherglen Muscat – takes the flavour of Rutherglen Muscat to a still higher plane of development, displaying a new level of intensity, depth and concentration of flavour, mature rancio characters, and a complexity which imparts layers of texture and flavour.*  
Average age 10-15 years. Residual sweetness 270-400 grams per litre.

*'Rare' Rutherglen Muscat – is rare by name and by nature. These are the pinnacle – fully developed and displaying the extraordinary qualities that result from the blending of selected parcels of only the very richest, and most complete wines in the cellar. Rare Rutherglen Muscats are only bottled in tiny quantities each year, but for those privileged to taste them, these are wines of breathtaking complexity, texture and depth of flavour.*  
Minimum age 20+ years. Residual sweetness 270-400 grams per litre

## Port & Madeira Bottled

A privately owned company dating back to 1850, Henriques & Henriques, also known as 'H & H', is the largest independent producer and shipper of Madeira. The styles of these luscious and complex fortified wines varies from the bone dry Sercial, followed by Terrantez (nowadays this varietal practically extinct), to the sweetest style, Malvasia (sometimes known as Malmsey). These extremely rare wines were shipped directly from the cellars of H & H.

## Cognac 30mls

One of the world's most exceptional Cognacs, from one of the most well know and innovative producers; Richard Hennessy is made up of more than 100 of the most exceptional eaux de vie, some of which date from the early 19th century. Each one has been selected for its unique qualities. Balanced and complex, the rich bouquet slowly releases a succession of aromas that have built up over the years: vanilla, spices, pepper and delicately fragrant flowers. In the mouth, the infinitely refined texture reveals an extraordinary palette of flavours that blends spices, the subtle essence of ripe fruit and the finesse of oak.

# Australian Wine Regions

Australia has about 60 wine regions located across the country with 103 “defined geographic indications” for wine growing districts covering zones, regions and sub-regions. The following States and zones described are of the regions most represented on the glass wine list.

**Western Australia.** Two decades ago, Margaret River was better known for the classic surf break lying not far from the junction of river and sea but entrepreneurs have driven the development of vineyards and wineries that have overcome the State's geographic isolation and carved their mark not just within Australia but around the world. This region has become known for zesty Sauvignon Blancs, fine Chardonnay, superlative Cabernet Sauvignons and bold Zinfandel.

**New South Wales** was the first State to grow the grapevine. Boasting an incredibly diverse range of climates, the state is famous for many varieties, including Semillon in a style unique to Australia. **ACT** is now producing some of the finest cool climate Shiraz in the country.

**South Australia** produces world Class wines. Shiraz that is rich & silky, Cabernet with structure and finesse, and Riesling with amazing longevity.

**Victoria** is home to many diverse regions with great wines of which Pinot, Chardonnay, Riesling and Shiraz are just a few examples.
