CHAMPAGNE

LIBRARY, DESIRABLE & RARE

The nectar of monarchs; kings, princes and nobles were the first lovers of Champagne.

Today, great men & women of the world each have their favourite Champagne and their choices are as varied as their political beliefs. – *The Comité Champagne*.

TAITTINGER

Taittinger is the 3rd oldest Champagne house and can be traced as far back as 1734. The Comte de Champagne is made exclusively from Grand Cru Chardonnay grapes from the best vineyards of the Côte des Blancs. Only wines from the first pressing (La Cuvée) are used.

SPARKLING

HOUSE OF ARRAS

"The philosophy for Arras sparkling wines is simple, to create world class sparkling wines. Created by Australia's most awarded sparkling winemaker, Ed Carr, outstanding fruit are sourced across Tasmania's premium cold climate regions. The art of blending sparkling wine is one that can only be mastered by perfecting the craft, patience to allow the wine to mature at its own pace and the experience to know when it is at its best." - House of Arras

Franciacorta is produced in Lombardy from predominantly Pinot Nero and Chardonnay and is the closest expression to Champagne made in Italy. Think complexity and finesse rather than other fruit driven styles made in Italy.

Prosecco is produced in the Northern part of Italy, is a fascinating wine for its gentleness, its suppleness, its moderate body, its velvet smoothness and its sapidity. Obtained by Charmat method is the ideal system for the production of sparkling wines with fruity aromas, as this method respects the original character of the fruit.

SEMILLON

Semillon is one of Australia's most distinguished wines, renowned for its transformation over time. In its youth, it offers bright, grassy notes with crisp citrus and lime, delivering a fresh and zesty profile. As it matures in the bottle, it evolves into a richly layered wine, showcasing complex flavors of honey, roasted nuts, and buttery toast. With the ability to age gracefully for up to 20 years, Semillon is a true testament to the rewards of patience and craftsmanship.

BROKENWOOD

Iain Riggs joined Brokenwood in 1982, introducing new winery equipment and facilities specifically for premium white wine production. At five to ten years Hunter Semillon takes on a green-gold hue and rich toasty characters. ILR Reserve is only released at five years of age.

SANCERRE AND POUILLY FUMÉ: BIRTHPLACE OF SAUVIGNON BLANC

The two communes of Sancerre and Pouilly Fumé, where arguably the best Sauvignon Blanc in the world is produced, sit on the eastern end of the Loire Valley in France. Many lovers of Sauvignon Blanc consider this is the true home for this grape. While New World producers (e.g. California and New Zealand) are creating excellent fruit-laden Sauvignon Blanc’s, the producers in the Loire Valley excel in complex, mineral-driven expressions of Sauvignon Blanc.

RIESLING

AUSTRALIA

Riesling has an ability to mature with age as well as delight with its youthful freshness. In addition to the famous Clare or Eden Valleys of South Australia, which develop this grape's classic honey, toast & citrus characters with age, there are more fine examples of Riesling from Western Australia's Great Southern region (great complexity), from Tasmania (crisp and perfumed) and the Barossa Valley (more rounded and full-flavoured) – wineaustralia.com

DOMAINE DE LA ROMANÉE-CONTI

VOSNE- ROMANÉE

La Tâche Monopole. Holding a remarkable reputation for producing great pinot even in the vintages considered to be difficult. La Tâche is said to be a more flamboyant wine than Romanée Conti.

	2016	DOMAINE DE LA ROMANÉE-CONTI	Grand Cru	12000

ROMANÉE-SAINT-VIVANT

Described by the Domaine as flirtatious : one cannot help loving it. Behind this grace resides a strength in such perfect balance that, at first, it was imperceptible.

RICHEBOURG

The 2020 Richebourg Grand Cru is wilder on the nose, revealing aromas of rich exotic spices, wild berries, cassia, coniferous forest floor, smoked meats and a discreet touch of sweet saddle leather, followed by a full-bodied, fleshy and enveloping palate that's rich and layered, with huge levels of concentration and ripe structuring tannins, concluding with a long, violet-inflected finish.

	2020	DOMAINE DE LA ROMANÉE-CONTI	Grand Cru	7900

GRANDS ÉCHEZEUX

The Grands Echézeaux vineyard is located just above the Clos de Vougeot, and below the core climats of Echézeaux itself: Les Poulailles and Echézeaux du Dessus. Grands Echézeaux is a brilliant terroir, and is perhaps even a bit overlooked.

CORTON

Corton is the grand cru appellation covering the slopes of the Montagne de Corton hill in the Côte de Beaune district of Burgundy. It is the largest grand cru vineyard in Burgundy. Typically rich and relatively tannic, meaning that it is quite austere in its youth but develops well with age. Flavors of violets, forest berries, leather and earthy notes.

ICONIC AUSTRALIAN REDS

GRANGE is sourced from Kalimna in the Barossa Valley, McLaren Vale, Adelaide (Magill) and Padthaway in South Australia. Penfolds Grange displays fully ripe, intensely flavoured and textured Shiraz grapes in combination with new American oak. The Grange style is the original and most powerful expression of Penfolds' multi-vineyard, multi-district blending philosophy.

HILL OF GRACE is a single historic vineyard located in the Eden Valley of South Australia. The century-old Shiraz vines were planted around the 1860s by an ancestor, Nicolaus Stanitzki. This 100% pre-phylloxera Shiraz vineyard lies opposite an old Lutheran Church, built of local stone, which was euphoniously named Gnadenberg, meaning 'Hill of Grace'.

TORBRECK VINTNERS The newest super-premium to join the Torbreck line up is The Laird. This vineyard is perfect in every way and this vineyard also has an "X factor" which gives the wine an extra something that cannot be fully explained. The resulting small, concentrated berries produced consistently on the property make it the envy of all the winemakers in the valley. - torbreck.com

BROKENWOOD

Graveyard Vineyard is the jewel in the Brokenwood crown, responsible for the company's flagship wines. The vineyard was planted with Shiraz in 1970 - extremely heavy clay soils, yields are low & fruit flavour is intense through employment of meticulous vinification techniques.

SHIRAZ (the same grape as Syrah in France's Rhône Valley) was one of the first vine varieties to arrive in Australia in 1832. So at home was it on its new turf, plantings prospered and it wasn't long before the local population began to take it for granted. However, by the 1980s people had begun to realise how versatile it could be, its character changed depending on the region in which it was grown.

Winemaker Tim Kirk's ethereal and evocative Clonakilla Shiraz Viognier is perhaps one of the most important advances in the development of Australian Shiraz since the release of 1952 Penfolds Grange Hermitage. Clonakilla, meaning "Meadow of the Church" and located in a gently south facing fold of the cool southern tablelands at Murrumbateman near Canberra, was established by CSIRO research scientist John Kirk in 1971.

CABERNET SAUVIGNON

Australia has been growing Cabernet Sauvignon for more than 100 years and our own Langhorne Creek region is home to the world's oldest officially recorded Cabernet Sauvignon vineyard – 2 acres planted in 1891. It was the region of Coonawarra, in the 1970s, which first brought international attention to Australia's version of this grape with its intense fruit flavours.

SPANISH REDS

Spain produces some exciting, world class red wines from regions such as Rioja & Ribera del Duero famous for their rich and savoury Tempranillo production. Rioja Alta is known more for its "old world" style of wine, which can tend to be a little lighter; the Rioja Alavesa produces wines with a fuller body & higher acidity; and the Rioja Baja wines are very deeply coloured and can be highly alcoholic with some wines at 18% abv.

BARBARESCO & BAROLO *ITALY'S NOBLE TWINS*

Among the most enticing Italian wines, Barolo and Barbaresco of northern Italy's Piedmont can be the most sublime and the most difficult to appreciate. Both are crafted from the thick-skinned, late-ripening Nebbiolo grape, which has proven unforgiving to almost anyone who tries to grow it anywhere but its native Piedmont. Extremely robust with aromas reminiscent of black fruits, tar & leather; high in both tannin and acidity, it takes an experienced hand to produce really great Nebbiolo that is both enjoyable in its youth & capable of refinement with extended aging.

GAJA

located in the village of Barbaresco in the Langhe area of the region of Piedmont, in Italy, was founded in 1859. Angelo Gaja, perhaps the most influential individual in Italian wines over the last 30 years, came from a family of wine makers. Gaja revolutionised the wine business in Barbaresco and beyond. The word 'Sori' means a hilltop with a southern exposure. 'Sperss' is Piedmontese for nostalgia, used in reference to a return to making Barolo after several years of absence. 'Costa Russi' is a single vineyard acquired by the Gaja family in 1967. The name comes from the term "costa", the side of a hill facing the sun, and "Russi" a nickname of the previous owner.

SAUTERNES *THE ULTIMATE DESSERT WINE*

The powerfully sweet & luscious wines of Sauternes in the Bordeaux region of France produce some of the most sought after dessert wines in the world. A result of the misty Ciron River, Botrytis cinerea (Noble rot), hand picking, elite winemaking and a combination of the grapes - Semillon, Sauvignon Blanc & Muscadelle, produce these great wines.

LIQUID SUNSHINE

The Muscat & Topaque from north-east Victoria are truly one of Australia's "gifts" to the world of wine. These rich and textural wines are sometimes described as "liquid sunshine", as the grapes are generally left on the vine much longer than usual. This allows the berries to store more natural sugar while drying out slightly in the warmth of Australia's autumn days. Rutherglen Muscat & Topaque are classified under four descriptions that mark a progression in richness, complexity and intensity of flavour.

'Rutherglen' – is the foundation of the style; displaying the fresh raisin aromas, rich fruit, clean spirit and great length of flavour on the palate which are the mark of all the fortifieds of Rutherglen. Average age 2-5 years. Residual sweetness 180-240 grams per litre.

'Classic' – displays a greater level of richness and complexity, produced through the blending of selected parcels of wine, often matured in various sizes of oak cask to impart the distinctive dry 'rancio' characters produced from maturation in seasoned wood. Average age 5-10 years. Residual sweetness 200-280 grams per litre.

'Grand' – takes the flavour of Rutherglen fortifieds to a still higher plane of development, displaying a new level of intensity, depth and concentration of flavour, mature rancio characters, and a complexity which imparts layers of texture and flavour. Average age 10-15 years. Residual sweetness 270-400 grams per litre.

'Rare' – is rare by name and by nature. These are the pinnacle – fully developed and displaying the extraordinary qualities that result from the blending of selected parcels of only the very richest, and most complete wines in the cellar. Rare Rutherglen fortifieds are only bottled in tiny quantities each year, but for those privileged to taste them, these are wines of breathtaking complexity, texture and depth of flavour.

Minimum age 20+ years. Residual sweetness 270-400 grams per litre

MADEIRA BOTTLED

The islands of Madeira have a long winemaking history and their fortified wines are some of the longest lived wines in the world, even after opening. Madeira is noted for its unique winemaking process which involves heating the wine up to temperatures as high as 60 degrees for an extended period of time and deliberately exposing the wine to some levels of oxidation.

This chart is best used as a guide, as many producers create great wines from difficult years; as can microclimate and terroir sometimes defy difficult weather.

Rated 1-10; 10 being the best.

AUSTRALIAN WINE REGIONS

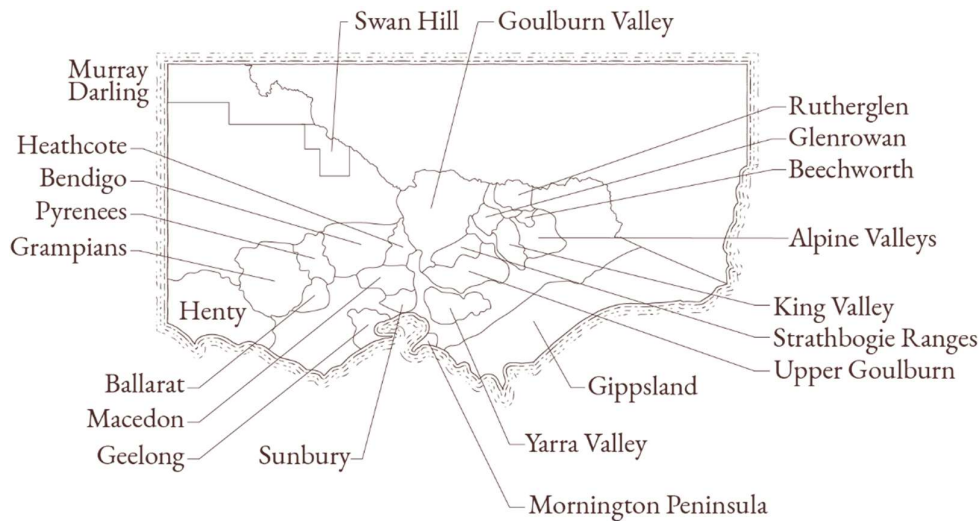

Australia has about 60 wine regions located across the country with 103 “defined geographic indications” for wine growing districts covering zones, regions and sub-regions. The following States and zones described are of the regions most represented on the glass wine list.

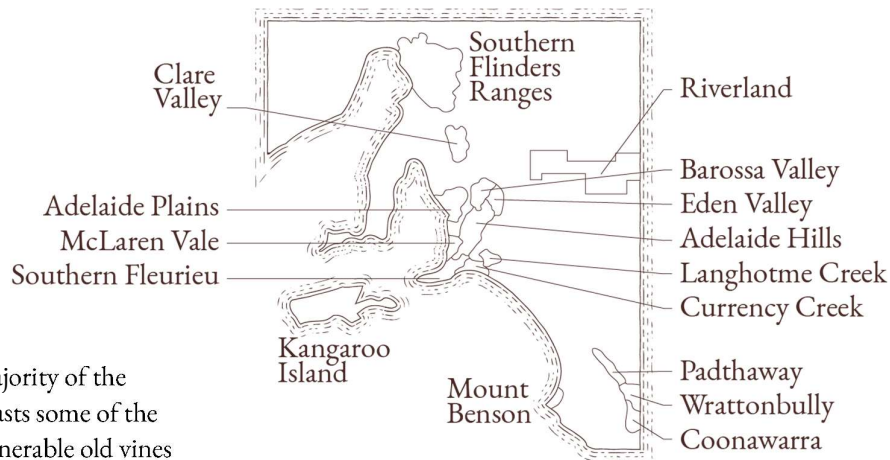

New South Wales was the first State to grow the grapevine, and is home to 5 of Australia’s oldest wine companies and/or continuously operating wine brands; Wyndam Estate (1928); Lindemans (1843); Draytons Family Wines (1853); Mudgee Wines (1856) and Tyrrell’s (1858). Boasting an incredibly diverse range of climates, NSW is famous for many varieties, including Semillon in a style unique to Australia.

Western Australia Two decades ago, Margaret River was better known for the classic surf break lying not far from the junction of river and sea but entrepreneurs have driven the development of vineyards and wineries that have overcome the State’s geographic isolation and carved their mark not just within Australia but around the world. This region has become known for zesty Sauvignon Blancs, fine Chardonnay, superlative Cabernet Sauvignons and bold Zinfandel.

Victoria is tucked into the south-eastern corner of the Australian mainland. It has many diverse regions. The warm-climate regions span the northern and western rim of Victoria and include the Murray Darling, Swan Hill and Rutherglen, which has carved a reputation for unique fortified wine styles such as Muscat. These wines do boast hedonistic sweet fruit flavours concentrated through long dry autumns. Victoria's other wine regions are general cooler than those of the States to the north and west. One example is the Yarra Valley region, just half an hour's drive from Melbourne, which produces, among others, Chardonnay and Pinot Noir wines of elegance and incredible delicacy.

South Australia produces the majority of the nation's wine. The State also boasts some of the oldest vines in the world. The venerable old vines found in South Australia's Barossa Valley, McLaren Vale, Clare Valley and Adelaide Hills, through their isolation, survived the great phylloxera plagues that wiped out the vines of North America, Europe and Australia's eastern vineyards.
